Editing and Deleting a Model from the Library

Introduction

Zortrax Model Library is the collection of ready-made models, which have been uploaded by users of Zortrax printers. The Library is available within Z-SUITE and as a subpage at zortrax.com.

To gain access to the Zortrax Model Library in Z-SUITE, open the program and click on the “Library” tab on the top of the main screen. You will be automatically transferred to the page where you can see all the latest models and available categories. You can also look for models by using the search field.

Menu and Registration

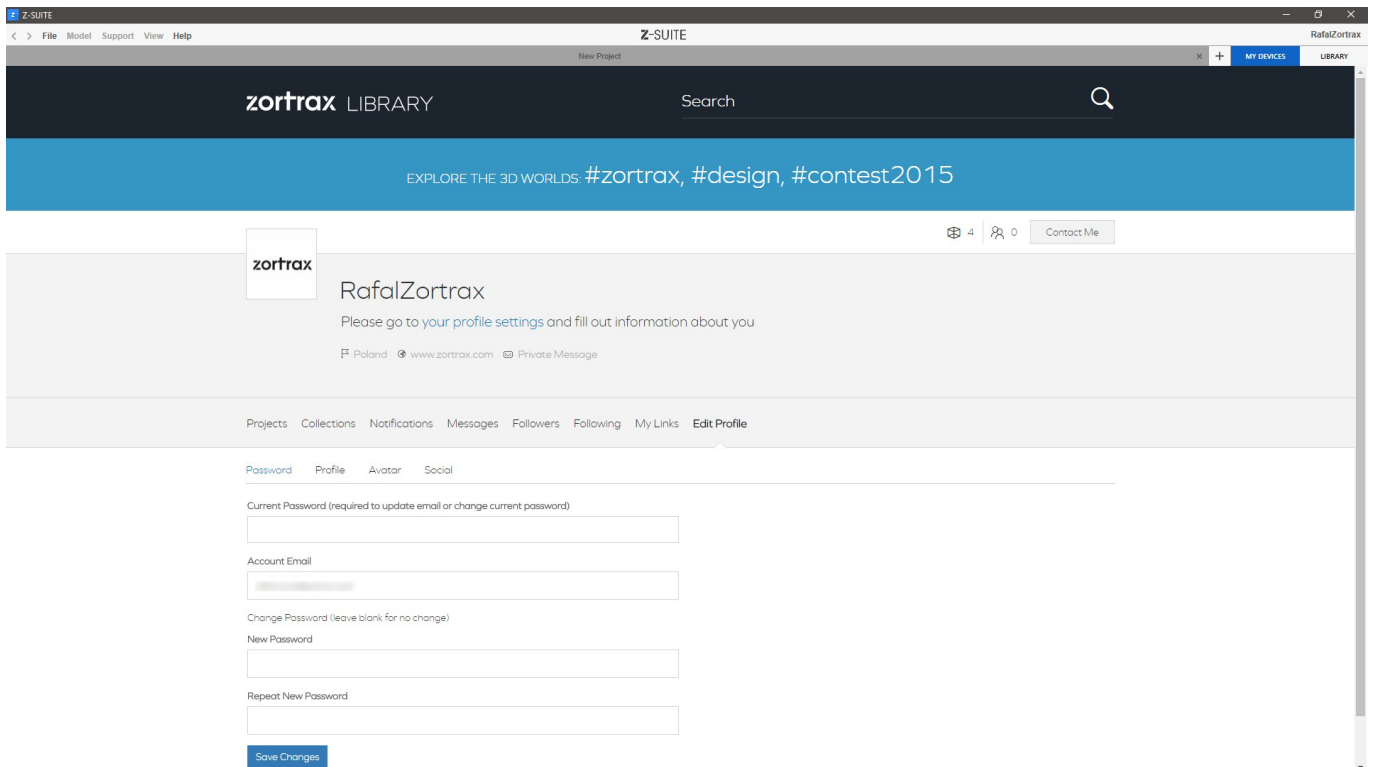

To enter all sections and upload your own projects to the Zortrax Model Library, you need to create an account. Type in your login, e-mail address and password, and click “Create new account.”

Profile

Once your account has been created, you can edit your profile by clicking on the "Edit Profile" button.

You can change your current password, e-mail address, profile name or add more information about yourself, such as your country or a short bio. You can also upload and set your own avatar.

Adding your own Projects

The screenshot shows the 'Create new project' form on the Zortrax Library website. The form is titled 'Create new project' and includes several input fields and dropdown menus. At the top left, it says 'ZORTRAX ONLINE STORE | ZORTRAX.COM'. At the top right, there are social media icons, a user profile 'RafalZortrax', and an 'ADD PROJECT' button. The main header features the 'zortrax LIBRARY' logo, a search bar, and a magnifying glass icon. Below the header, a blue banner contains the text 'EXPLORE THE 3D WORLDS: #zortrax, #design, #contest2015'. The form itself is divided into several sections: 'Project Name' (text input), 'Category' (dropdown menu), 'Source Files' (a large dashed box with 'Drag & Drop' and 'or choose a file: CHOOSE FILE' buttons), 'Description' (text area), 'License' (dropdown menu), 'Visibility' (dropdown menu), 'Tags' (text input with a tip: 'Tip: Separate tags with comma, click on 'x' to remove it'), 'Printed On' (dropdown menu), and 'Used Materials' (text area).

Adding your custom project is only possible at the web version of the Library.

To upload a project, click on the “Add Project” button in the top right corner of the main screen. Then type in all the necessary information about the model, such as its name, category, tags, or a short description. Once you add the project, you can choose whether it will be public or private.

Exploring other Projects

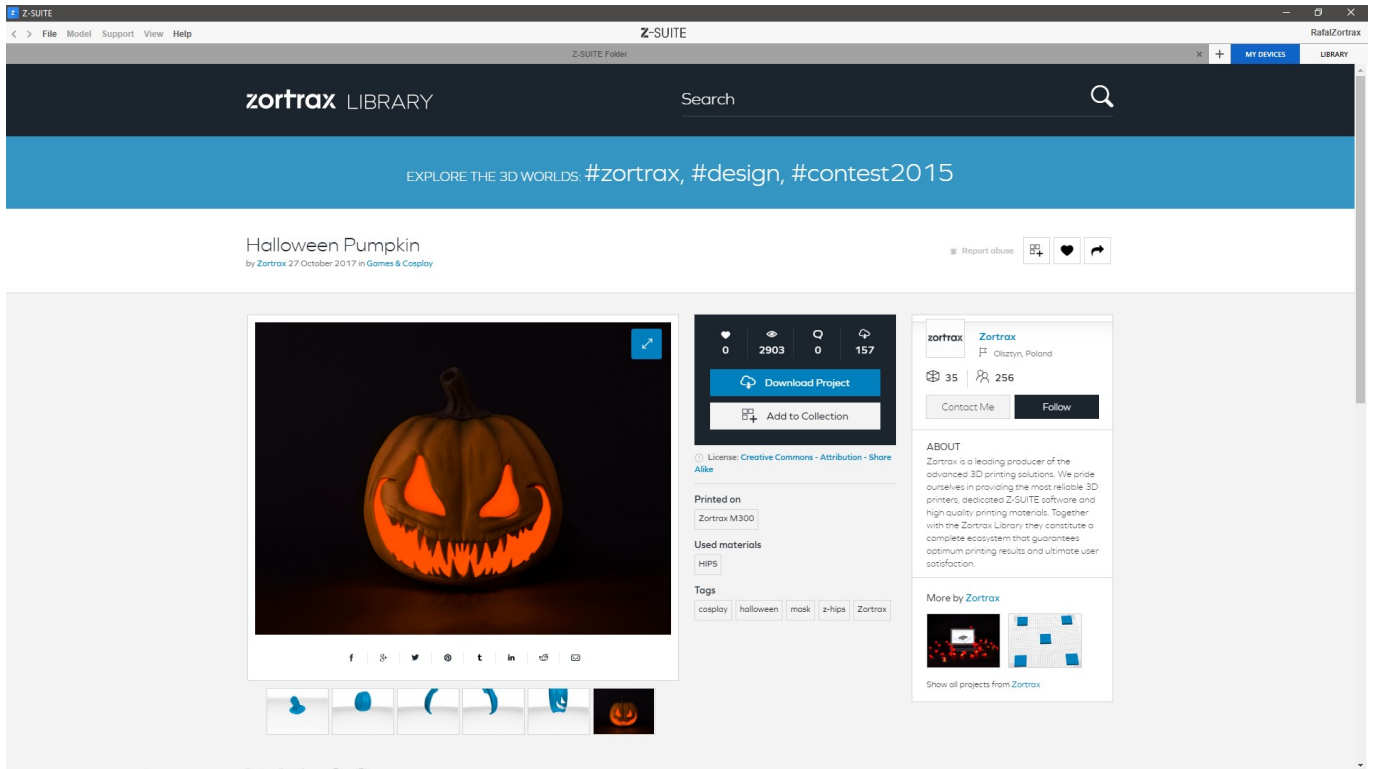

The screenshot shows the Zortrax Library interface within the Z-Suite software. The top navigation bar includes 'File', 'Model', 'Support', 'View', and 'Help'. The main header features the 'zortrax LIBRARY' logo, a search bar, and a navigation menu with 'MY DEVICES' and 'LIBRARY'. A blue banner below the header reads 'EXPLORE THE 3D WORLDS #zortrax, #design, #contest2015'. The main content area is titled 'Editors Choice' and displays a grid of four featured projects, each with a thumbnail image and a table of statistics:

| Project Name | Author | Views | Comments | Downloads | Category |
|--------------------------|-------------|-------|----------|-----------|-----------------|
| Halloween Pumpkin | by Zortrax | 2902 | 0 | 156 | Games & Cosplay |
| Spinning ball | by oberfett | 3559 | 1 | 343 | Games & Cosplay |
| Cube puzzle | by Joe177 | 6054 | 3 | 271 | Games & Cosplay |
| Dice Water Tower By NIXA | by NIXA | 8797 | 1 | 1017 | Games & Cosplay |

To the right of the grid is a sidebar with a search icon and a list of categories: Art & Design, Automotives, Aviation, Engineering, Fashion & Accessories, Games & Cosplay, Household Objects, Robotics, and Zortrax Parts. Below the grid, a section titled 'Range of fine projects for various needs' features a horizontal row of category thumbnails: ARCHITECTURE, ART & DESIGN, AUTOMOTIVES, AVIATION, EDUCATION, ENGINEERING, FASHION & ACCESSORIES, GAMES & COSPLAY, HOUSEHOLD OBJECTS, MEDICINE, ROBOTICS, and ZORTRAX PARTS.

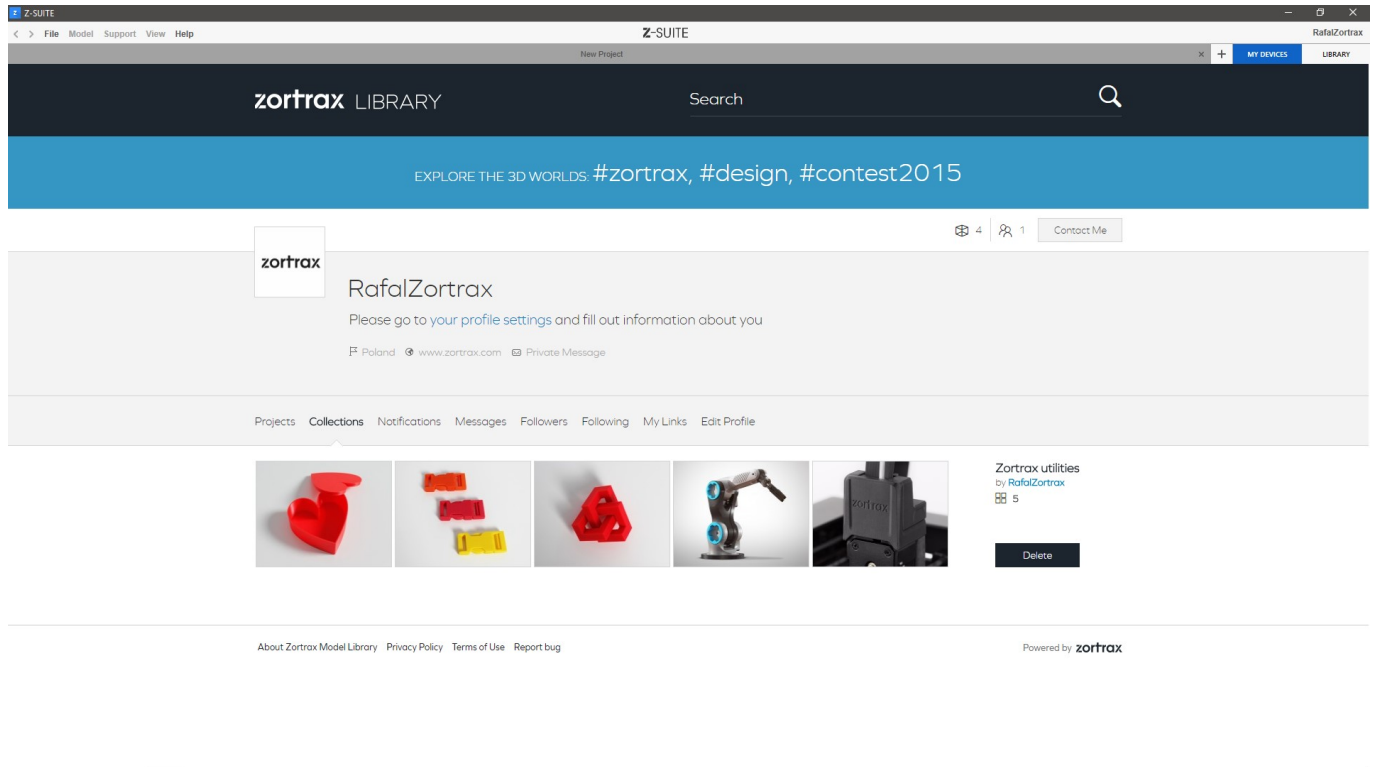

To browse through the available models, you have to open the main page of the Library. All projects are available in categories and collections. You can also use the search fields to look for models.

Apart from that, you can download projects, browse through the added files, or leave comments.

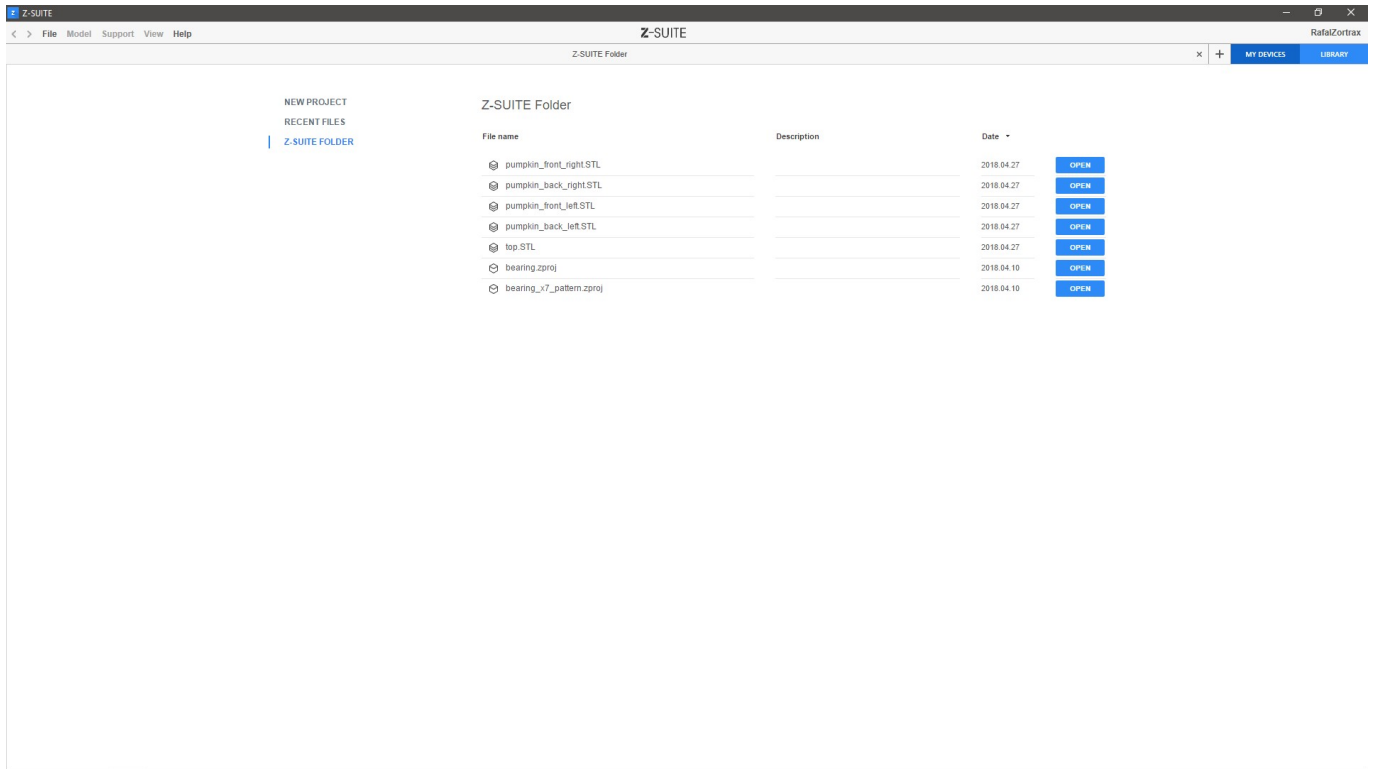

To download a project, open its page and click "Download Project." You can also save it by clicking "Add to Collection."

Local Files

All models that you've added to your collection are available in the "Collections" tab on your profile page. You can create several groups of models and name each group according to the type of models it contains, for example, Zortrax utilities.

All models that you've downloaded from the Z-SUITE version of Library are stored in the "Z-SUITE folder."

Editing and Deleting a Model from the Library

The screenshot displays the Zortrax Library web interface within a Z-Suite browser window. The interface includes a navigation menu, a search bar, and a user profile for RafalZortrax. Below the profile, there is a grid of four 3D models, each with an 'EDIT' button and associated statistics.

| Model Name | Views | Comments | Downloads | Category |
|----------------|-------|----------|-----------|--------------|
| Flash diffuser | 330 | 0 | 13 | Engineering |
| Heart | 570 | 0 | 120 | Medicine |
| Z-Gadget | 305 | 0 | 33 | Education |
| Z logo | 189 | 0 | 16 | Art & Design |

Click on the “Projects” tab to browse through your custom project you’ve added to the Zortrax Library. In order to edit or delete a project, click “Edit” and you’ll be redirected to the section where you can modify the project’s data or delete it permanently from the Zortrax Model Library.
