# Removing the Print

**Table Of Contents**

# Unplugging the Power Cable

Turn off the printer and unplug the power cable.

Wait about 30 minutes until the platform and the print cool down.
# Unplugging the Heatbed Cable

Unplug the heatbed cable from the platform. Both the big and small connectors need to be unplugged.

# Platform Removal

Remove the platform from the printer.

# Removing the Print

Use the spatula to remove the print.

Remove the print very carefully. Do not point the blade of the spatula towards the platform connectors.

# Platform Installation

Put the platform back in the printer and plug the heatbed cable in. Both big and small connectors need to be plugged in.

# Plugging the Power Cable

Plug the power cable in.
